i5 *dye* **INVISION**™

DESIGNED FOR THE ART OF WINNING™

The next evolution in the DYE goggle line is also the next evolution in paintball eye and face protection technology. New ground breaking features like the GSR pro-strap and e.VOKE communication system make the i5, the most advanced goggle system in the industry today. Engineered to perform, designed to inspire, the i5 is the pinnacle of paintball mask development. The new i5 goggle system is an aggressive, Ultralite mask, offering more protection, more venting, better comfort, better sound processing and better safety, all combined for complete unmatched performance.

The Tirodial Horizon 290 degree anti-fog lens, gives you unparalleled optical clarity with both vertical and horizontal peripheral vision. The new soft touch multi-layer foam works in tandem with the all new GSR Pro-Strap, to give you the most secure and most comfortable fit ever offered in a paintball goggle system. A first for the paintball industry: upgrade with the new technology e.VOKE unit and your i5 & M2 are in instant communication, feeding you vital game time information wirelessly. The i5 goggle system lets you play the game at another level. This is the next evolution in paintball goggle system technology.

e.VOKE COMPATIBLE

Electronically upgrade your game, the i5 is ready to go wireless. With the simple plug and go kit, your i5 and M2 are in instant communication, feeding you vital game time information via wireless Air-Sync connection. Automated audio alerts and reports keep you ahead of the competition. e.VOKE is the next evolution in paintball goggle systems and paintball gun technology.

HEADS UP POV MOUNT

Integrated mounting system for POV cameras. Play with confidence that you are capturing every moment on video. The POV mount sits parallel with your line of sight to help you attach your POV camera securely, with proper alignment. Now you won't miss a second of the action.

SOUND CATCH AUDIO CLARITY

The i5 ear guards are specifically designed to prevent reduction in hearing, without leaving your ears vulnerable. Precision shaped and positioned hole patterns allow sound to flow cleanly through the ear guard, without distortion.

SCREAM MULTI-DIRECTIONAL VENTING

Using patented technology the i5's improved blade angling and increased vent design, help heat and moisture dissipate quickly. Scream Multi-Directional Venting makes communication with teammates effortless.

ANIT-FOG THERMAL LENS

The i5 features an industry first compound radius lens with thermoformed technology, giving the player the ultimate vertical/horizontal peripheral vision. Dye thermal lenses provide the benchmark for anti-fog performance. Made famous on the Dye i4, our thermal horizontal 290 degree lenses provide perfect optical clarity and have set the standard of visual performance for others to follow.

ANATOMIC FIT AND FUNCTION

The anatomically correct i5 mask system offers the best in comfort for all facial contours. Mask geometry was meticulously designed for long lasting comfort while ensuring a secure, safe fit. Engineered to distribute force evenly, for a soft yet positive fit that doesn't pinch or cause fatigue.

MASK PROTECTION V11.5

The i5 was designed to protect every player at every level of competition. More coverage without sacrificing style or weight. The i5 v11.5 facemask provides increased protection, while still maintaining a tight profile with total comfort.

ASTM CERTIFIED

Sometimes meeting the standard isn't good enough when it comes to safety. The i5 is tested at twice the current impact ASTM and CE standards. Compete with confidence that your safety is our #1 priority.

GSR PRO STRAP

The GSR Pro strap is a quantum leap in goggle strap design and security. The GSR gear lock system gives you precise tension control for an unpresented secure, comfortable fit. The extra wide head pad grips the back of your head and distributes the force over a large area, ensuring zero slip and maximum comfort. Simply turn the dial and ratchet down your i5 to a precision fit. The GSR is a revolutionary step in goggle strap technology, providing the ultimate in comfort and performance.

QUICK RELEASE FOAM KIT REPLACEMENT

Patent pending, quick, simple, tool-less foam replacement. The i5 lets you keep your mask fresh, clean and comfortable. Never play with worn out, uncomfortable and deteriorating foam again. In seconds you can be back to new and back on the field.

SOFT TOUCH MULTI-LAYER FOAM

Comfort at a new level. DYE's new soft touch foam offers the most comfortable facial fit in the industry. New high grade open cell multi-layer foam provides an ultra-soft touch, while simultaneously providing a rugged secure fit. Dye's new compression foam with the luxury of a terry cloth treatment gives the i5 ultimate form fitting comfort.

HORIZON 290 LENS SYSTEM

DYE's Horizon 290 lens offer more peripheral vision than any other paintball mask system on the market today. Opposition movement is easier to recognize and provides a distinct tactical advantage. This, combined with our optically correct and robust Tiroidal design, protects your eyes with excellent optical clarity. The i5 lens is manufactured with a premium hard-coat dip, that protects both sides of the lens against scratches and minor abrasions. Additionally, Dye's UV hard-coating offers exceptional protection from the sun's harmful rays. The i4 and i5 utilize the same compatible lens.

COMPRESSION FORMED EARS

Ear protection is critical, but it does not need to be bulky. The i5 system features a compression formed ear piece that is soft, flexible and extremely lightweight. Constructed with advanced materials that increase moisture evaporation while providing full coverage protection and comfort.

RAPID LENS CHANGE

The i5 benefits from the new low profile rapid lens change system, allowing lens changes in seconds. It is as simple as pinching the retention clips, sliding them forward and the lens is free to be removed. Effortless, quick and simple.

ONYX GOLD
40150101

e.VOKE COMPATIBLE

The simple plug and go kit, puts your i5 and M2 in instant communication, feeding you vital game time information via wireless Air-Sync connection. Automated audio alerts and reports keep you ahead of the competition.

QUICK RELEASE FOAM KIT REPLACEMENT

The i5 lets you keep your mask fresh, clean, and comfortable with this Patent pending, quick, simple, tool-less foam replacement. In seconds you can be back to new and back on the field.

M2

MOS AIR

DESIGNED FOR THE ART OF WINNING™

The M2 just took another giant step in the world of technology with the new MOS-Air. DYE's new Method Operating System Air, takes the best paintball gun control platform of the M2 marker and makes it better. The M2 MOS Air allows the operator unparalleled access to precision tuning, vital marker performance feedback and marker service reports. Now with even more customizable features, like power control options, multiple boot screens, new fire mode, new play screens, shot tracker as well as Cable Free Charging and wireless Air Sync. The MOS-Air actively tracks sub-systems for you, so you are focused on the game not your marker. Customize nearly every aspect of the next generation M2 operating system for the ultimate playing experience.

EVOKE
COMPATIBLE

I5 goggle hands free information system
A revolutionary step for the sport of paintball, the next generation M2 MOSAir is wireless. With the simple plug and go e.VOKE Box, your gun is ready to send your I5 e.VOKE vital game time information via DYE's air Sync wireless connection. Customizable automated audio alerts like time tracking and shot count, keep you ahead of the competition.

CFC
CABLE FREE CHARGING

Wireless Power Transfer is now standard. Set up you charging pad or charging stand and you never need to plug your M2 in again to charge. Your M2 can now be charged on any inductive charging base and the DYE charging pad works with other inductive charging systems. Is your smart-phone as advanced as the M2? It's time to upgrade to wireless charging and play.

SHOT
TRACKER

Keep track of how many balls you have remaining, or track what you shot in the day. With the new Shot Tracker, you know when you are running low during the game and when to make your move.

POWER OFF
DOUBLE TAP OPTION

Press and hold or double tap to power off. Whatever makes you comfortable, it's your choice how to power down your M2. The new power down option combined with the updated Quick Draw power up with audio alert setting, lets you get on and off the field with speed and comfort.

NEW OUTLAW
FIRING MODE

The new Outlaw Firing Mode lets you custom build your own firing mode. Choose burst or ramp, when it kicks in and what it takes to sustain your max rate of fire. Outlaw mode is just that, outlawed and not tournament legal but so much fun to run with.

NEW TOURNAMENT
STYLE PLAY SCREEN

Don't get falsely accused by the establishment again. Our new play screen lets any referee official, who's asserting his authority over you, quickly identify whether you are legal or not. Don't get profiled and mistakenly oppressed with penalties again because, playing time matters.

STORE THREE
BOOT SCREENS

Can't decide what your favorite boot screen is? Got more than one team you want to represent with your M2? Or maybe your little cousin is going to borrow your M2 with that adult themed boot screen that he should not see? Now there's no reason to worry. You can store & rotate between 3 custom boot screens so you are always in style and family friendly.

HIGH CONTRAST
PLAY SCREENS

No matter the playing conditions you have a screen that is easy to read. Choose between a white or black background on your play screen for maximum visibility.

SERVICE SYSTEM
DISABLE FEATURE

You live and breathe paintball with your self-taught PHD in gun technology and your own regiment for gun maintenance. Just for you, we have built the M2 MOS Air service alert to remind you it's time for service just like your car's check engine light. Don't like that check engine light on? No worries, now you can simply disable the M2 service system and play your game.

IMPROVED SYSTEMS
CHECK SCREEN

It has never been easier to tune your gun, with the new enhanced Systems Check Screen. Now you can clearly identify and process the most important data with just a quick tap to the right on the joystick.

Note: All new above features are only available on the new M2 MOS Air Circuit board due to the highly updated processor and coding that make up the MOS Air circuit board. MOS Air circuit boards are backwards compatible into all M2 Markers. All current M2 owners can upgrade their M2 Markers to become M2 MOS Air, with Dye's customer upgrade program. For the first 90 days, all current M2 owners can upgrade their M2 to MOS Air for a special introduction price.

DYENAMIC TECHNOLOGY

S E R I E S

DESIGNED IN THE REPUBLIC OF CALIFORNIA™

The DYEnamic technology series is designed to push Paintball Technology to the next level. Intuitive data is collected, analyzed, and relayed to the user. The e.VOKE puts you in constant communication with your equipment. Free flowing, real-time info is fed to you intuitively and on command, giving you a tactical advantage like never before. The DYEnamic series connects you and your equipment on a new spectrum, blurring the line where you end and your equipment begins.

E.VOKE
40159501

Go wireless with the i5 e.VOKE. With the simple plug and go kit, your M2 with MOSAiR is ready to send vital game time info to your i5 e.VOKE via a wireless PAN (Personal Area Network) connection. Keep your head in the game while the e.VOKE feeds you real time updates and alerts, or lets your M2 and e.VOKE walk you through the pro inspired drills, designed to help you improve your game. e.VOKE is the next technological evolution in paintball goggle system technology.

GAME
TIMER ALERTS

Don't drop your sight to check the time again. Stay guns up and focused down field and let e.VOKE do the work for you. With automatic alerts, the e.VOKE keeps your head up and always aware of the game time.

SHOT
TRACKER

Keep track of how many balls you have remaining, or track what you shot in a day. The e.VOKE will alert you as your paint supply runs low. With the new Shot Tracker you will receive auditory alerts to know what time you have left in the game and when to make your move.

G-COUNT
TRACKER

Keep record of your eliminations for the day or for the point. With a tap of the button you add each new elimination, or get an update on who is up on bodies.

SERVICE
ALERTS

Don't get left in the staging area again because you forgot to check battery levels, or service your M2. The e.VOKE automatically alerts you when your M2 is coming due for service.

TRAINING MODE
ASSISTANCE / ASSISTANT

With the e.VOKE and the M2 with MOSAiR, you can train for the big event even if you are the only one at the field. The e.VOKE will walk you through the training modes and help you with direction to sharpen your skills.

RECHARGABLE
BATTERY

Use a standard mini USB cable to charge you e.VOKE from any power supply. During charging the power level is indicated by the LED.

CIRCUIT BOARD M2 MOSAIR

91940007

Level up your M2 with the MOSAIR circuit board. DYE’s Method Operating System Air takes the pinnacle of paintball circuit board technology and makes it better. The operator has unparalleled access through the 1x1” Prism interface screen that allows for precision tuning, vital performance feedback, and service reports. Now, with more customizable features like power control options, multiple boot screens, new firing mode, new play screens, Shot Tracker as well as Cable Free Charging, and Wireless Air Sync. The MOSAIR actively tracks sub-systems so you are focused on the game not your marker. Customize nearly every aspect of the M2 for the ultimate playing experience. It’s time to upgrade your game.

CFC CHARGER AND TECH MAT

91940005

Wireless Power Transfer: Set up your charging pad and never have to plug in your M2 with MOSAIR again. Your M2 can now be charged on DYE’s wireless charging feature. The charging mat also doubles as a custom fit tech mat too! Don’t treat your M2 like a common, pedestrian level marker. Make sure it is treated like the high performance masterpiece that it is. Put her to bed proper with the MOSAIR (CFC) Cable Free Charging tech mat.

DYE M2 DISPLAY STAND
91940006

DYE’s artisan approach to the M2 is unmistakably evident from the marker’s elegant contours. Sharp, aggressive lines flow seamlessly across the M2. The new M2 Display stand allows you to display and showcase your prized piece of equipment like it was always meant to be. Combined with the CFC charger the display stand elegantly back lights your M2 to make it the centerpiece of any collection. With extraordinary performance, comfort and unprecedented beauty, the M2 with MOSAir is the definition of luxury craftsmanship. Place your M2 on the pedestal it deserves.
